1. Summary of Significant Accounting Policies and Going Concern

A. Accounting Practices

The accompanying financial statements of Patrons Oxford Insurance Company (Company) have been prepared on the basis of accounting practices prescribed or permitted by the Maine Insurance Department.

The state of Maine requires insurance companies domiciled in the state of Maine to prepare their statutory financial statements in accordance with the National Association of Insurance Commissioners' (NAIC) Accounting Practices and Procedures Manual (NAIC SAP) subject to any deviations prescribed or permitted by the Maine Insurance Department.

The Company was granted permission by the State of Maine Insurance Department to recognize the full 'Book/Adjusted Carrying Value Less Encumbrances' for the owner-occupied real estate held by the Company as an admitted asset. This permitted practice is not valid for any future real estate purchases. Reconciliations of net income and policyholders' surplus between the amounts reported in the accompanying financial statements and NAIC SAP follow:

B. Use of Estimates in the Preparation of the Financial Statements

The preparation of financial statements requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenues and expenses. It also requires estimates in the disclosure of contingent assets and liabilities. Actual results could differ from these estimates.

C. Accounting Policy

Premiums are earned over the terms of the related policies and reinsurance contracts. Unearned premiums are established to cover the unexpired portion of premiums written. Such reserves are computed by pro rata methods for direct business and are based on reports received from ceding companies for reinsurance assumed. Expenses incurred in connection with acquiring new insurance business, including acquisition costs such as sales commissions, are charged to operations as incurred. Expenses incurred are reduced for ceding allowances received or receivable.

In addition, the Company uses the following accounting policies:

- (1) Short-term investments are stated at amortized value using the interest method. Non-investment grade short-term investments are stated at the lower of amortized value or fair value.
- (2) Bonds not backed by other loans are stated at amortized value using the interest method. Non-investment grade bonds are stated at the lower of amortized value or fair value.
- (3) Common stocks Not Applicable
- (4) Preferred stocks Not Applicable
- (5) Mortgage loans Not Applicable
- (6) Loan-backed securities Not Applicable
- (7) Investments in subsidiaries, controlled and affiliated entities Not Applicable
- (8) Investments in joint ventures, partnerships and limited liability companies Not Applicable
- (9) Derivatives Not Applicable
- (10) The Company does not anticipate investment income as a factor in premium deficiency calculations.
- (11) Liabilities for losses and loss/claim adjustment expenses Not Applicable
- (12) The Company has not modified its capitalization policy from the prior period.
- (13) The Company does not write medical insurance.

D. Going Concern

Based upon its evaluation of relevant conditions and events, Management does not have substantial doubt about the Company's ability to continue as a going concern.
