EXHIBIT 5 - INTERROGATORIES

1.1 1.2	Has the reporting entity ever issued both participating and non-participating contracts?	Yes []	No [Х]
	Non -Participating				., .
2.1	Does the reporting entity at present issue both participating and non-participating contracts?	Yes []	No [ΧJ
2.2	If not, state which kind is issued.				
_	Non- Participating	., .	., .		
3.	Does the reporting entity at present issue or have in force contracts that contain non-guaranteed elements?	Yes [ΧJ	No [J
	If so, attach a statement that contains the determination procedures, answers to the interrogatories and an actuarial opinion as described in the instructions.				
4.	Has the reporting entity any assessment or stipulated premium contracts in force?	Yes []	No [Χ]
	If so, state:				
	4.1 Amount of insurance?\$				
	4.2 Amount of reserve?\$				
	4.3 Basis of reserve:				
	4.4 Basis of regular assessments:				
	4.5 Basis of special assessments:				
	4.6 Assessments collected during the year\$				
5.	If the contract loan interest rate guaranteed in any one or more of its currently issued contracts is less than 5%, not in advance, state the contract loan rate guarantees on any such contracts.				
6.	Does the reporting entity hold reserves for any annuity contracts that are less than the reserves that would be held on a standard basis?	Yes []	No [Х]
	6.1 If so, state the amount of reserve on such contracts on the basis actually held:\$				
	6.2 That would have been held (on an exact or approximate basis) using the actual ages of the annuitants; the interest rate(s) used in 6.1; and the same mortality basis used by the reporting entity for the valuation of comparable annuity benefits issued to standard lives. If the reporting entity has no comparable annuity benefits for standard lives to be valued, the mortality basis shall be the table most recently approved by the state of domicile for valuing individual annuity benefits:				
7.	Does the reporting entity have any Synthetic GIC contracts or agreements in effect as of December 31 of the current year?	Yes [1	No [X 1
	7.1 If yes, state the total dollar amount of assets covered by these contracts or agreements \$				
	7.2 Specify the basis (fair value, amortized cost, etc.) for determining the amount:				
	7.3 State the amount of reserves established for this business: \$				
	7.4 Identify where the reserves are reported in the blank:				
8.	Does the reporting entity have any Contingent Deferred Annuity contracts or agreements in effect as of December 31 of the current year?	Yes [1	No [X 1
	8.1 If yes, state the total dollar amount of account value covered by these contracts or agreements:				
	8.2 State the amount of reserves established for this business:				
	8.3 Identify where the reserves are reported in the blank:				
9.	Does the reporting entity have any Guaranteed Lifetime Income Benefit contracts, agreements or riders in effect as of December 31 of the current year?	Yes []	No [Х]
	9.1 If yes, state the total dollar amount of any account value associated with these contracts, agreements or riders:\$				
	9.2 State the amount of reserves established for this business:				
	9.3 Identify where the reserves are reported in the blank:

⁽a) Indicate if blocks of business in run-off that comprise less than 5% of premiums and less than 5% of reserve and loans liability are aggregated with material blocks of business and which columns are affected.

⁽b) Attach statement as to valuation standard used in calculating this reserve, specifying reserve bases, interest rates and methods.

EXHIBIT 6 – ATTACHMENT

(a) RESERVE BASIS, INTEREST RATES AND METHODS - EXHIBIT 6, LINE 2

(1) Critical Illness Policies

Method

Two-year preliminary term. Additional reserves are mid-terminal.

Basis

Morbidity and lapse rates are based on pricing assumptions. The interest rate is the whole life rate for the issue year determined according to the Standard Valuation Law. Mortality rates are based on the 2017 CSO Mortality Table for 2020 to current year issues.

(2) Hospital Indemnity Policies

Method

Two year preliminary term method. All additional reserves are mid-terminal.

Basis

Morbidity and lapse rates are based on pricing assumptions. The interest rate is the whole life rate for the issue year determined according to the Standard Valuation Law. Mortality rates are based on the 2017 CSO Mortality Table for policies issued in 2020 to current year issues.

- (b) RESERVE BASIS, INTEREST RATES AND METHODS EXHIBIT 6, LINE 10
- (1) Loss of Time Benefits
 - (i) Group Policies:

For Leave related products reserve are calculated using a completion method based on total Unum Group experience for Short Term Disability products. Allocation to company is based on pro rata share of benefits paid.

1. Summary of Significant Accounting Policies and Going Concern

A. Accounting Practices

The financial statements of Unum Insurance Company (the Company) have been completed in accordance with Statutory Accounting Principles (SAP) prescribed in the National Association of Insurance Commissioners' (NAIC) *Accounting Practices and Procedures* manual. The Maine Bureau of Insurance (the Bureau) has adopted no accounting practices that differ materially from SAP.

		SSAP#	F/S Page	F/S Line #	12/31/2022	12/31/2021

(8) NAIC SAP	(5-6-7=8)	XXX	XXX	XXX	\$85,083,375	\$74,217,128

B. Use of Estimates in the Preparation of the Financial Statements

The preparation of financial statements in conformity with SAP requires management to make estimates and assumptions that affect amounts reported in the financial statements and accompanying notes. Such estimates and assumptions could change in the future as more information becomes known, particularly when considering the risks and uncertainties associated with the coronavirus disease 2019 (COVID-19), which could impact the amounts reported and disclosed herein.

C. Accounting Policy

Life and accident and health premiums are recognized as revenue when due from policyholders. Expenses incurred in connection with acquiring new insurance business, including acquisition costs such as sales commissions, are charged to operations as incurred.

The Company uses the following accounting policies:

- (1) Short-term investments and cash equivalents are carried at cost.
- (2) Long-term bonds classified as issuer obligations are generally carried at amortized cost unless they have a NAIC designation of 6, in which case they are stated at the lower of amortized cost or fair value. Issuer obligations are amortized using the interest method.
- (3) Not applicable
- (4) Not applicable
- (5) Not applicable
- (6) Loan-backed and structured securities are stated at amortized cost. Amortization of mortgage-backed securities considers the estimated timing and amount of prepayments of the underlying loans at the date of purchase. Actual prepayment experience is periodically reviewed with significant changes in estimated cash flows from the original purchase assumptions accounted for using the retrospective method.

- (7) Not applicable
- (8) Investments in joint ventures, partnerships, and limited liability entities are carried at values based on the underlying audited GAAP equity of the investee.
- (9) Not applicable
- (10) The Company considers anticipated investment income in its review of reserves for potential premium deficiencies.
- (11) Liabilities for losses and loss/claim adjustment expenses for accident and health contracts are estimated using statistical claim development models and tabular reserves employing assumptions concerning mortality and morbidity as well as appropriate discount rates for accident and health business.
- (12) Not applicable
- (13) Not applicable
- D. Going Concern

After evaluating the Company's ability to continue as a going concern, management was not aware of any conditions or events which raised substantial doubts concerning the Company's ability to continue as a going concern as of the date these financial statements were issued.

2. Accounting Changes and Corrections of Errors

Not applicable

3. Business Combinations and Goodwill

Not applicable

4. Discontinued Operations

Not applicable

- 5. Investments
- A. Not applicable
- B. Not applicable
- C. Not applicable
- D. Loan-Backed Securities
 - (1) Prepayment assumptions for mortgage-backed/loan-backed and structured securities were obtained from broker dealer survey values and internal estimates.
 - (2) Not applicable
 - (3) Not applicable

(4) As of December 31, 2022, impaired securities (fair value is less than cost or amortized cost) for which an other-than-temporary impairment had not been recognized in earnings as a realized loss (including securities with a recognized other-than-temporary impairment for non-interest related declines when a non-recognized interest related impairment remains) were as follows:

a. The aggregate amount of unrealized losses:

1. Less than 12 months	\$ 642,104
2. 12 months or longer	\$ _

b. The aggregate related fair value of securities with unrealized losses:

1. Less than 12 months	\$ 12,235,338
2. 12 months or longer	\$ _

- (5) In determining when a decline in fair value below amortized cost of a security is other than temporary, the Company evaluates the following factors:
 - Whether the Company expects to recover the entire amortized cost basis of the security.
 - Whether the Company intends to sell the security or will be required to sell the security before the recovery of its amortized cost basis.
 - Whether the security is current as to principal and interest payments.
 - The significance of the decline in value.
 - The time period during which there has been a significant decline in value.
 - Current and future business prospects and trends of earnings.
 - The valuation of the security's underlying collateral.
 - Relevant industry conditions and trends relative to their historical cycles.
 - Market conditions.
 - Rating agency and governmental actions.
 - Bid and offering prices and the level of trading activity.
 - Adverse changes in estimated cash flows for securitized investments.
 - Changes in fair value subsequent to the balance sheet date.
 - Any other key measures for the related security.

The Company evaluates available information, including the factors noted above, both positive and negative, in reaching its conclusions. In particular, the Company also considers the strength of the issuer's balance sheet, its debt obligations and near term funding requirements, cash flow and liquidity, the profitability of its core businesses, the availability of marketable assets which could be sold to increase liquidity, its industry fundamentals and regulatory environment, and its access to capital markets. Although all available and applicable factors are considered in the analysis, the expectation of recovering the entire amortized cost basis of the security, whether the Company intends to sell the security, whether it is more likely than not the Company will be required to sell the security before recovery of its amortized cost, and whether the security is current on principal and interest payments are the most critical factors in determining whether impairments are other than temporary. The significance of the decline in value and the length of time during which there has been a significant decline are also important factors, but the Company does not record an impairment loss based solely on these two factors, since often other factors will impact the evaluation of a security.

While determining other-than-temporary impairments is a judgmental area, the Company utilizes a formal, well-defined, and disciplined process to monitor and evaluate its investments, supported by issuer specific research and documentation as of the end of each period. The process results in a thorough evaluation of problem investments and the recording of realized losses on a timely basis for investments determined to have an other-than-temporary impairment.

- E. Dollar Repurchase Agreements and/or Securities Lending Agreements
 - (1) For repurchase agreements, the Company requires the counterparty to post a minimum cash collateral amount of 102 percent of the fair value of securities purchased under the repurchase agreements. For securities lending agreements, the Company requires a minimum collateral amount of 102 percent of the fair value of the securities loaned. Cash collateral received is invested in cash equivalents, and the offsetting collateral liability is reported as a miscellaneous liability. In the event securities are received as collateral, the Company is not permitted to sell or re-pledge them.
 - (2) The Company has a securities lending program whereby it had no pledged securities at December 31, 2022. In the case securities are pledged, these securities are reported as an asset and included in "Bonds." The Company did not hold a liability as of December 31, 2022 for cash collateral as none had been received from its securities lending program. In the case any cash collateral is held, it is reported as a liability as "Payable for securities lending." The liability is satisfied when the Company returns the cash to the counterparty and the borrowed security is returned to the Company.
 - (3) Not applicable
 - (4) Not applicable

- (5) Not applicable
- (6) As of December 31, 2022, the Company did not hold any collateral under its securities lending agreements. In the case securities are held as collateral, the Company is not permitted to sell or re-pledge those securities.

6. Joint Ventures, Partnerships and Limited Liability Companies

- A. The Company had no investments in joint ventures, partnerships, or limited liability companies that exceed 10 percent of its admitted assets.
- B. The Company did not recognize any impairment write-down for its investments in joint ventures, partnerships, and limited liability companies during the statement periods.

7. Investment Income

- A. The Company does not accrue investment income on bonds where collection of interest is uncertain. All investment income due and accrued amounts that are over 90 days past due are excluded from surplus in accordance with SSAP 34.
- B. The Company did not exclude any amounts from investment income due and accrued as of December 31, 2022.

⁽d) Column 9 divided by Asset Page, Column 3, Line 28

8. Derivative Instruments

Not applicable

9. Income Taxes

A. On August 16, 2022, the Inflation Reduction Act (IRA) was signed into law and includes certain corporate tax provisions. Impacts to the Company include the enactment of a corporate alternative minimum tax (CAMT), applicable to tax years beginning after December 31, 2022. The CAMT imposes a new 15 percent minimum tax on adjusted financial statement income (AFSI) on corporations that have average AFSI over \$1.0 billion in any prior three-year period, starting with years 2020 to 2022 and is determined on an affiliated group basis. We anticipate that the affiliated group of which the Company is a member will be an applicable corporation as early as 2023. The Company has not determined, as of December 31, 2022, if it will be subject to the CAMT in 2023. The fourth quarter 2022 financial statements do not include an estimated impact of the CAMT because a reasonable estimate cannot be made.

The Components of the net deferred tax assets liabilities and change from the prior year are comprised of the following:

	omponents of the net defense.	ture under the first year are comprised of the foreign.

D. The provision for federal income tax incurred differs from the amount obtained by applying the federal statutory rate of 21 percent to pre-tax net income, as shown below. Prior year amounts have been reclassified to conform to the current year presentation.

		Year Ended	mber 31			
	2022		2021			
Provision Computed at Statutory Rate	\$ 11,196,058	21.0 %	\$	8,400,895	21.0 %	
Other	(9,942)	_		(464,693)	(1.1)	
Total	\$ 11,186,116	21.0 %	\$	7,936,202	19.9 %	
Federal Income Tax Incurred	\$ 13,040,907	24.5 %	\$	8,366,445	20.9 %	
Tax Effect of Unrealized Gains (Losses)	1,319			1,737		
Change in Net Deferred Income Tax	(1,856,110)	(3.5)		(431,980)	(1.0)	
Total Statutory Income Tax	\$ 11,186,116	21.0 %	\$	7,936,202	19.9 %	

E. As of December 31, 2022 and 2021, the tax related balances due (to) from Unum Group were \$703,554 and \$(1,194,336), respectively.

Income tax expense for 2022, 2021, and 2020 that is available for recoupment in the event of future net losses is as follows:

Year	 Ordinary	Capital	Total		
2022	\$ 13,032,768	\$ 	\$	13,032,768	
2021	8,372,238	61,218		8,433,456	
2020		 639		639	
Total	\$ 21,405,006	\$ 61,857	\$	21,466,863	

F. The Company's federal income tax return is consolidated with the following entities:

Unum Group (ultimate parent company), Unum Life Insurance Company of America, First Unum Life Insurance Company, Northwind Reinsurance Company, Colonial Life & Accident Insurance Company, Provident Life and Accident Insurance Company, Provident Life and Casualty Insurance Company, The Paul Revere Life Insurance Company, Duncanson & Holt, Inc., Fairwind Insurance Company, H&J Capital, LLC, Starmount Life Insurance Company, Starmount Insurance Agency, Inc., AlwaysCare Benefits, Inc., Starmount Managed Dental of California, Inc., and LeaveLogic, Inc.

The Company is party to a written tax sharing agreement with the consolidated group members listed above. The agreement provides that the portion of the consolidated tax liability allocated to the Company is based on its separate return tax liability. Under the agreement, additional tax benefits are allocated to the Company for its portion of net operating losses and tax credit carryforwards in the year they are used by the consolidated group.

Tax year 2017 and tax years subsequent to 2018 remain subject to examination by tax authorities in the U.S.

- G. The Company does not anticipate a significant increase to a loss contingency for income taxes in the next 12 months.
- H. Not applicable
- I. Not applicable

10. Information Concerning Parent, Subsidiaries, Affiliates, and Other Related Parties

- A. Nature of the Relationship: Unum Insurance Company, a wholly-owned subsidiary of Unum Group. See Schedule Y Part 1 for a complete listing of affiliates.
- B. On September 15 and December 20, 2022, the Company paid ordinary common stock dividends in cash to Unum Group of \$16,000,000 and \$15,600,000, respectively. On December 20, 2021, the Company paid an ordinary common stock dividend in cash to Unum Group of \$4,800,000.
- C. Not applicable
- D. Amounts reported on pages 2 and 3 herein as receivables from or payables to parent, subsidiaries, and affiliates result from normal, ongoing business processes and are settled in full on a monthly basis.
- E. The Company receives from its affiliates certain administrative, investment, and actuarial services, the cost of which was negotiated in an arm's-length transaction.

F.	Not applicable
G.	All outstanding shares of the Company are owned by Unum Group, a non-insurance holding company incorporated in Delaware. Various other affiliates are under the ownership of Unum Group, but all transactions between affiliates are arm's-length in nature and do not result in the operating results or financial position of the Company being significantly different from those that would have been obtained if the enterprises were autonomous.

I.	Not applicable
13.	Capital and Surplus, Dividend Restrictions and Quasi-Reorganizations
A.	The Company has 500,000 shares authorized, issued and outstanding. Par value is \$5 per share.
B.	The Company has no preferred stock outstanding.
C.	The maximum amount of dividends which can be paid to shareholders by Maine domiciled insurance companies without prior approval by the Bureau is subject to restrictions relating to (i) the greater of 10 percent of an insurer's surplus as regards policyholders as of the preceding year end or the net gain from operations of the preceding year, (ii) dividends being declared within five years after any acquisition of control of a domestic insurer or its ultimate controlling person (unless approved by a number of continuing directors equal to a majority of the directors in office immediately preceding that acquisition of control), and (iii) payment not being made entirely from unassigned funds, where 50 percent of the net of unrealized capital gains and unrealized capital losses, reduced, but not to less than zero, by that portion of the asset valuation reserve attributable to equity investments, must be excluded from the calculation of unassigned funds.

D. On September 15 and December 20, 2022, the Company paid ordinary common stock dividends in cash to Unum Group of \$16,000,000 and \$15,600,000, respectively. On December 20, 2021, the Company paid an ordinary common stock dividend in

cash to Unum Group of \$4,800,000.

- E. The portion of the Company's profits that may be payable as ordinary dividends to its stockholders is a function of the dividend restriction previously noted.
- F. Not applicable
- G. Not applicable
- H. Not applicable
- I. Not applicable
- J. The Company's unassigned funds (surplus) represented by cumulative unrealized gains was \$9,522 as of December 31, 2022.

- M. Not applicable

14. Liabilities, Contingencies and Assessments

- A. Not applicable
- B. Assessments
 - (1) The Company accrues in its financial statements estimates of guaranty fund assessments based on known insolvencies and historical Company state participation levels. A corresponding receivable is recorded for amounts estimated to be recoverable through future state premium tax offsets. Based on notifications the Company has received regarding the insolvency of various external companies, the Company recognized a liability in previous years, the balance of which is \$93,751 at December 31, 2022. The Company cannot determine the periods over which the assessments are expected to be paid.
 - (2) The change in the guaranty asset balance summarized below reflects estimated premium tax offsets of new insolvencies accrued for during 2022, revised estimated premium tax offsets for existing insolvencies based on revised estimated cost information provided by the National Organization of Life and Health Guaranty Associations, and an adjustment for premium tax offsets used.

Rollforward of Related Asset	Decemb	per 31, 2022
a. Assets recognized from paid and accrued premium tax offsets and policy surcharges prior year-end	\$	55,946
b. Decreases current year:		
Premium tax offset applied		3,506
c. Increases current year:		
Change in cost estimate		47,555
d. Assets recognized from paid and accrued premium tax offsets and policy surcharges current year-end	\$	99,995

- (3) Not applicable
- C. Not applicable
- D. The Company had no claims related extra contractual obligation losses or bad faith losses stemming from lawsuits.
- E. Not applicable
- F. Unum Group and its insurance subsidiaries, including the Company (collectively, the Group), are defendants in a number of litigation matters that have arisen in the normal course of business, including the matters discussed below. Further, state insurance regulatory authorities and other federal and state authorities regularly make inquiries and conduct investigations concerning the Group's compliance with applicable insurance and other laws and regulations. Given the complexity and scope of the Group's litigation and regulatory matters, it is not possible to predict the ultimate outcome of all pending investigations or legal proceedings or provide reasonable estimates of potential losses, except if noted in connection with specific matters.

In some of these matters, no specified amount is sought. In others, very large or indeterminate amounts, including punitive and treble damages, are asserted. There is a wide variation of pleading practice permitted in the United States courts with respect to requests for monetary damages, including some courts in which no specified amount is required and others which allow the plaintiff to state only that the amount sought is sufficient to invoke the jurisdiction of that court. Further, some jurisdictions permit plaintiffs to allege damages well in excess of reasonably possible verdicts. Based on extensive experience and that of others in the industry with respect to litigating or resolving claims through settlement over an extended period of time, the Group

believes that the monetary damages asserted in a lawsuit or claim bear little relation to the merits of the case, or the likely disposition value. Therefore, the specific monetary relief sought is not stated. Unless indicated otherwise in the descriptions below, reserves have not been established for litigation and contingencies. An estimated loss is accrued when it is both probable that a liability has been incurred and the amount of the loss can be reasonably estimated.

Claim Handling Matters

The Company, in the ordinary course of its business, is engaged in claim litigation where disputes arise as a result of a denial or termination of benefits. Most typically these lawsuits are filed on behalf of a single claimant or policyholder, and in some of these individual actions punitive damages are sought, such as claims alleging bad faith in the handling of insurance claims. For its general claim litigation, the Company maintains reserves based on experience to satisfy judgments and settlements in the normal course. Management expects that the ultimate liability, if any, with respect to general claim litigation, after consideration of the reserves maintained, will not be material to the financial condition of the Company. Nevertheless, given the inherent unpredictability of litigation, it is possible that an adverse outcome in certain claim litigation involving punitive damages could, from time to time, have a material adverse effect on the Company's results of operations in a period, depending on the results of operations of the Company for the particular period. The Company is unable to estimate the range of reasonably possible punitive losses.

From time to time class action allegations are pursued, where the claimant or policyholder purports to represent a larger number of individuals who are similarly situated. Since each insurance claim is evaluated based on its own merits, there is rarely a single act or series of actions, which can properly be addressed by a class action. Nevertheless, these cases are monitored closely, and the Company defends itself appropriately where these allegations are made.

Miscellaneous Matters

Insurance companies within the Group, including the Company, are examined periodically by their states of domicile and by other states in which they are licensed to conduct business. The domestic examinations have traditionally emphasized financial matters from the perspective of protection of policyholders, but they can and have covered other subjects that an examining state may be interested in reviewing, such as market conduct issues, reserve adequacy, sales practices, advertising materials, licensing and appointing of agents and brokers, underwriting, data security and identification and handling of unclaimed property.

15. Leases

The Company is not involved in any material lease agreements.

16. Information About Financial Instruments With Off-Balance Sheet Risk and Financial Instruments With Concentrations of Credit Risk

Not applicable

17. Sale, Transfer and Servicing of Financial Assets and Extinguishments of Liabilities

- A. Not applicable
- B. Transfer and Servicing of Financial Assets
 - (1) Securities are loaned to brokers on a short-term basis during the normal course of business. For loaned securities, Company policies require that a minimum of 102 percent of the fair value of the securities loaned be maintained as collateral. Generally, cash is received as collateral under these agreements. In the event that securities are received as collateral, they are restricted from general use by the Company. The Company is provided a degree of access to the assets permitting admission under SSAP No. 4.
 - (2) Not applicable
 - (3) Not applicable
 - (4) Not applicable
 - (5) The Company has a securities lending program whereby it did not pledge any securities as of December 31, 2022 or December 31, 2021. When securities are pledged they are reported as an asset and included in "Bonds." As of December 31, 2022 and 2021, the Company did not hold any cash collateral from its securities lending program. Cash collateral is generally reported as a liability as "Payable for securities lending", which would typically be satisfied when the Company returned the cash to the counterparty and the borrowed security was returned to the Company.

If the Company held securities as collateral, it would not record a liability for securities received as collateral from its securities lending program because it is not permitted to sell or re-pledge those securities. See Note 5 for further detail of the Company's securities lending transactions.

(6) Not applicable

- (7) Not applicable
- C. Not applicable
- 18. Gain or Loss to the Reporting Entity from Uninsured Plans and the Uninsured Portion of Partially Insured Plans

Not applicable

19. Direct Premium Written/Produced by Managing General Agents/Third Party Administrators

There were no direct premiums written through managing general agents and third party administrators for the year ending December 31, 2022.

20. Fair Value Measurements

The fair values of the Company's financial instruments are categorized into a three-level classification. The lowest level input that is significant to the fair value measurement of a financial instrument is used to categorize the instrument and reflects the judgment of management. The valuation criterion for each level is summarized as follows:

- Level 1 Inputs are unadjusted and represent quoted prices in active markets for identical assets or liabilities at the measurement date.
- Level 2 Inputs (other than quoted prices included in Level 1) are either directly or indirectly observable for the asset or liability through correlation with market data at the measurement date and for the duration of the instrument's anticipated life. Level 2 inputs include, for example, indicative prices obtained from brokers or pricing services validated to other observable market data and quoted prices for similar assets or liabilities.
- Level 3 Inputs reflect the Company's best estimate of what market participants would use in pricing the asset or liability at the measurement date. Financial assets and liabilities categorized as Level 3 are generally based on prices or valuation techniques that require inputs that are both unobservable and significant to the overall fair value measurement. The inputs reflect the Company's estimates about the assumptions that market participants would use in pricing the instrument in a current period transaction.

See section C for further discussion of the Company's valuation methods and techniques.

(1) Fair value measurements for assets carried at fair value at December 31, 2022 are as follows:

		(Level 1)		(Level 2)		(Level 3)	let Asset ue (NAV)	Total	
a.	Assets at Fair Value								
	Separate account assets	\$	1,981,950	\$		\$ 	\$ 	\$	1,981,950

b. Not applicable

A.

There were no transfers between levels during the year ended December 31, 2022.

- (2) Not applicable
- (3) For fair value measurements of financial instruments that are transferred between levels, the Company reflects the transfers using the fair value at the beginning of the reporting period.
- (4) Not applicable
- (5) Not applicable
- B. Not applicable

C. Presented as follows are the fair values, admitted values and categorization by input level of financial instruments held at the reporting date. The admitted values of financial instruments such as cash and cash equivalents, accounts receivable, accrued investment income, and short-term payables approximate fair value due to the short-term nature of the instruments. As such, these financial instruments are not included in the following charts.

				De	cember 31, 20	22						
Type of Financial Instrument		Aggregate Fair Value	Admitted Values		Level 1		Level 2		Level 3		Jet Asset lue (NAV)	Not racticable Carrying Value)
Admitted Assets Bonds Other Invested Assets Separate Accounts	\$	72,660,952 1,400,574 1,981,950	\$ 81,853,002 1,400,574 1,981,950	\$	8,764,460 — 1,981,950	\$	63,896,492	\$	_ _ _	\$		\$ _ _ _
				De	cember 31, 20	21						
Type of Financial Instrument		Aggregate Fair Value	Admitted Values		Level 1		Level 2		Level 3		let Asset lue (NAV)	Not racticable Carrying Value)
Admitted Assets Bonds Other Invested Assets	\$	75,788,072 1,394,291	\$ 70,593,737 1,394,291	\$	6,091,120	\$	69,696,952	\$	_ _	\$		\$ _
Separate Accounts		2,812,282	2,812,282		2,812,282		_		_		_	_

The following methods and assumptions were used in estimating the fair values of the Company's financial instruments.

Bonds: Fair values are based on quoted market prices where available. For bonds not actively traded, fair values are estimated using values obtained from independent pricing services. For private placements, the Company either obtains prices from independent third-party brokers to establish valuations for certain of these bonds or uses fair values that are estimated using analyses of similar bonds adjusted for comparability.

Other Invested Assets: The Company reports investments in private equity partnerships at its share of the partnerships' net asset value or its equivalent (NAV) based on the underlying audited GAAP equity of the investee. NAV is utilized as a practical expedient for fair value disclosure.

Separate Accounts: The Company's separate account investments consist of publicly traded mutual funds with fair values published by the respective investment companies.

Fair values for the Company's insurance contracts other than investment contracts are not required to be disclosed. However, the fair values of liabilities under all insurance contracts are taken into consideration in the Company's overall management of interest rate risk, which minimizes exposure to changing interest rates through the matching of investment maturities with amounts due under insurance contracts.

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date and, therefore, represents an exit price, not an entry price. The exit price objective applies regardless of a reporting entity's intent and/or ability to sell the asset or transfer the liability at the measurement date

The degree of judgment utilized in measuring the fair value of financial instruments generally correlates to the level of pricing observability. Financial instruments with readily available active quoted prices or for which fair value can be measured from actively quoted prices in active markets generally have more pricing observability and less judgment utilized in measuring fair value. An active market for a financial instrument is a market in which transactions for an asset or a similar asset occur with sufficient frequency and volume to provide pricing information on an ongoing basis. A quoted price in an active market provides the most reliable evidence of fair value and should be used to measure fair value whenever available. Conversely, financial instruments rarely traded or not quoted have less observability and are measured at fair value using valuation techniques that require more judgment. Pricing observability is generally impacted by a number of factors, including the type of financial instrument, whether the financial instrument is new to the market and not yet established, the characteristics specific to the transaction, and overall market conditions.

Valuation techniques used for assets and liabilities accounted for at fair value are generally categorized into three types. The market approach uses prices and other relevant information from market transactions involving identical or comparable assets or liabilities. The income approach converts future amounts, such as cash flows or earnings, to a single present amount, or a discounted amount. The cost approach is based upon the amount that currently would be required to replace the service capacity of an asset, or the current replacement cost.

The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available that can be obtained without undue cost and effort. In some cases, a single valuation technique will be appropriate (for example, when valuing an asset or liability using quoted prices in an active market for identical assets or liabilities). In other cases, multiple valuation techniques will be appropriate. If the Company uses multiple valuation techniques to measure fair value, it evaluates and weighs the results, as appropriate, considering the reasonableness of the range indicated by those results. A fair value measurement is the point within that range that is most representative of fair value in the circumstances.

The selection of the valuation method(s) to apply considers the definition of an exit price and depends on the nature of the asset or liability being valued. The Company generally uses valuation techniques consistent with the market approach, and to a lesser extent, the income approach. The Company believes the market approach valuation technique provides more observable data than the income approach, considering the type of investments the Company holds. The Company's fair value measurements could differ significantly based on the valuation technique and available inputs. When using a pricing service, the Company obtains the vendor's pricing documentation to ensure the Company understands their methodologies. The Company periodically reviews and approves the selection of its pricing vendors to ensure the Company is in agreement with their current methodologies. When markets are less active, brokers may rely more on models with inputs based on the information available only to the broker. The Company's internal investment management professionals, which include portfolio managers and analysts, monitor securities priced by brokers and evaluate their prices for reasonableness based on benchmarking to available primary and secondary market information. In weighing a broker quote as an input to fair value, the Company places less reliance on quotes that do not reflect the result of market transactions. The Company also considers the nature of the quote, particularly whether it is a bid or market quote. If prices in an inactive market do not reflect current prices for the same or similar assets, adjustments may be necessary to arrive at fair value. When relevant market data is unavailable, which may be the case during periods of market uncertainty, the income approach can, in suitable circumstances, provide a more appropriate fair value. During 2022, the Company has applied valuation techniques on a consistent basis to similar assets and liabilities and consistent with those techniques used at year end 2021

The Company uses observable and unobservable inputs in measuring the fair value of its financial instruments. Inputs that may be used include the following:

- Market maker prices and price levels
- Trade Reporting and Compliance Engine (TRACE) pricing
- Prices obtained from external pricing services
- Benchmark yields (Treasury and interest rate swap curves)
- Transactional data for new issuance and secondary trades
- Security cash flows and structures
- Recent issuance/supply
- Sector and issuer level spreads
- Security credit ratings/maturity/capital structure/optionality
- Corporate actions
- Underlying collateral
- Prepayment speeds/loan performance/delinquencies/weighted average life/seasoning
- Public covenants
- Comparative bond analysis
- Relevant reports issued by analysts and rating agencies
- Audited financial statements

The management of the Company's investment portfolio includes establishing pricing policy and reviewing the reasonableness of sources and inputs used in developing pricing. The Company reviews all prices that vary between multiple pricing vendors by a threshold that is outside of a normal market range for the asset type. In the event the Company receives a vendor's market price that does not appear reasonable based on its market analysis, the Company may challenge the price and request further information about the assumptions and methodologies used by the vendor to price the security. The Company may change the vendor price based on a better data source such as an actual trade. The Company also reviews all prices that did not change from the prior month to ensure that these prices are within the Company's expectations. The overall valuation process for determining fair values may include adjustments to valuations obtained from the Company's pricing sources when they do not represent a valid exit price. These adjustments may be made when, in the Company's judgment and considering its knowledge of the financial conditions and industry in which the issuer operates, certain features of the financial instrument require that an adjustment be made to the value originally obtained from the Company's pricing sources. These features may include the complexity of the financial instrument, the market in which the financial instrument is traded, credit structure, concentration, or liquidity. Additionally, an adjustment to the price derived from a model typically reflects the Company's judgment of the inputs that other participants in the market for the financial instrument being measured at fair value would consider in pricing that same financial instrument. In the event an asset is sold, the Company tests the validity of the fair value determined by its valuation techniques by comparing the selling price to the fair value determined for the asset in the immediately preceding month end reporting period closest to the transaction date.

The parameters and inputs used to validate a price on a security may be adjusted for assumptions about risk and current market conditions on a quarter to quarter basis, as certain features may be more significant drivers of valuation at the time of pricing. Changes to inputs in valuations are not changes to valuation methodologies; rather, the inputs are modified to reflect direct or indirect impacts on asset classes from changes in market conditions.

Certain of the Company's investments may not have readily determinable market prices and/or observable inputs or may at times be affected by the lack of market liquidity. For these securities, the Company uses internally prepared valuations, including valuations based on estimates of future profitability, to estimate the fair value. Additionally, the Company may obtain prices from independent third-party brokers to aid in establishing valuations for certain of these securities. Key assumptions used to determine fair value for these securities include risk free interest rates, risk premiums, performance of underlying collateral (if any), and other factors involving significant assumptions which may or may not reflect those of an active market.

The Company considers transactions in inactive or disorderly markets to be less representative of fair value. The Company uses all available observable inputs when measuring fair value, but when significant other unobservable inputs and adjustments are necessary, these assets or liabilities are classified as Level 3.

D. Not applicable

E. Investments in private equity partnerships represent funds that are primarily invested in private credit as described below. Distributions received from the investments in private equity partnerships arise from income generated by the underlying investments as well as the liquidation of the underlying investments. There is generally not a public market for these investments.

The following table presents additional information about investments in private equity partnerships, including commitments for additional investments which may or may not be funded:

		December 3	31, 2022			
Investment Category Private credit	Ne	t Asset Value (NAV)	Redemption Term / Redemption Notice	Unfunded Commitments		
Private credit	\$	1,400,574	Redemption Term / Unfun Commit Not redeemable \$ 1, 2021 Redemption Term / Unfun Commit	\$	_	
		December 3	31, 2021			
Investment Category	Ne	t Asset Value (NAV)	Redemption Term / Redemption Notice	Unfunded Commitme		
Private credit	\$	1,394,291	Not redeemable	\$	_	

Private Credit - The limited partnerships described in this category employ various investment strategies, generally providing direct lending or other forms of debt financing including first-lien, second-lien, mezzanine, and subordinated loans. The limited partnerships have credit exposure to corporates, physical assets, and/or financial assets within a variety of industries (including manufacturing, healthcare, energy, business services, technology, materials, and retail) in North America and, to a lesser extent, outside of North America. The Company estimates these investments will provide distributions over the next 11 years, until all underlying assets are liquidated.

- F. Subprime Mortgage Related Risk Exposure
 - (1) At December 31, 2022, the Company held no investments with subprime mortgage risk exposure. The Company's definition of subprime mortgages is based primarily on the underlying credit scores of the loans, specifically the FICO score. To ensure proper mitigation of subprime mortgage risk, the Company's investment strategy is to avoid purchasing any investments with subprime exposure. Risk assessment is performed and analyzed prior to the purchase of any mortgage-backed securities to ensure the transaction is in compliance with the Company's policy to avoid subprime mortgage risk exposure.

G. Retained Assets

- (1) The number and amount of retained asset accounts described below represent payments of life insurance proceeds which are retained by the Company within the general account. These accounts are reported in the annual statement as cash and supplemental contracts without life contingencies. The accountholder has the full and unfettered right to withdraw funds in whole or in part at whatever time he or she wishes, except that, in the event that the amount in the account falls below \$250, a payment is made to the accountholder for the current balance in the account, and the account is closed. Effective June 30, 2022, accountholders were credited interest equal to 0.75 percent which is an increase from the previous 0.25 percent that was applied prior to June 30, 2022. The annual interest compounds on a monthly basis from the date on which the account was created. The retained asset account is not the Company's default method of settling life claims unless the beneficiary has not reached the age of majority at the time the benefit is settled.
- (2) Aging of retained asset accounts is as follows:

	In Force									
	Dece	mber 31, 2022	Decei	mber 31, 2021						
Aging	Number	Balance	Number	Balance						
a. Up to and including 12 Months	1	\$ 16,667	_	\$

31. Reserves for Life Contracts and Annuity Contracts

(1) Principally, the Company waives deduction of deferred fractional premiums upon death of the insured and returns any portion of the final premium beyond the date of death. Surrender values are not promised in excess of legally computed reserves.

- (2) The extra reserve on annual premium policies subject to an extra premium is one-half the extra annual gross premium. The extra reserve for single premium policies subject to an extra premium is one-half the extra gross single premium. The rating-up in age method and liens are not used by the Company.
- (3) As of December 31, 2022, the Company had no insurance in force for which the gross premiums are less than the net premiums according to the standard valuation required by the State of Maine.
- (4) The tabular interest, tabular less actual reserve released, and tabular cost have each been determined by formula as described in the instructions.
- (5) For the determination of tabular interest on supplemental contracts and dividend accumulations not involving life contingencies, the tabular interest is determined by formula as described in the instructions. Tabular interest on deposit funds other than supplemental contracts and dividend accumulations is determined using actual interest credited and/or accrued to the funds.
- (6) There were no other material reserve changes.

35. Separate Accounts

A. Separate Account Activity:

(1) Separate accounts held by the Company represent variable annuity contract funds which the Company invests in pooled investment securities on behalf of the accounts' contract holders.

In accordance with the domiciliary state procedures for approving items within the separate account, the separate account classification of the variable annuity contract funds are supported by Maine Insurance Code 24-A s 2537.

- (2) All assets within the separate account are legally insulated from the general account. The legal insulation of the separate account assets prevents such assets from being generally available to satisfy claims resulting from the general account.
- (3) As discussed in section B below, there are certain guarantees associated with the separate account. As of December 31, 2022, the general account of the Company had a maximum guarantee for separate account liabilities of \$13,263. To compensate the general account for the risk taken, the separate account paid risk charges as follows for the past five years:
 - a. 2022 \$ 21,830 b. 2021 \$ 25,900 c. 2020 \$ 22,861 d. 2019 \$ 21,940 e. 2018 \$ 22,880

The general account of the Company did not pay any amounts to contract holders due to separate account guarantees during the years ended December 31, 2018 through 2022.

- (4) Not applicable
- B. General Nature and Characteristics of Separate Accounts Business:

The variable annuity contract funds held in the separate accounts are of a nonguaranteed return nature. The net investment experience of the separate accounts is credited directly to the contract holder and can be positive or negative. These variable annuities generally provide an incidental death benefit of the greater of account value or premium paid. The separate account also provides a mortality guarantee, such that contract holders that have annuitized are guaranteed they will continue to receive annuity benefits if they live longer than actuarially projected.

Information regarding the separate account of the Company is as follows:

36. Loss/Claim Adjustment Expenses

The Company did not have a liability for unpaid accident and health claim adjustment expenses as of December 31, 2022 or December 31, 2021.

The Company incurred and paid claim adjustment expenses of \$649,105 and \$363,171 during 2022 and 2021, respectively, none of which were attributable to insured or covered events of prior years. The Company did not increase or decrease the provision for insured events of prior years.

The Company took into account estimated anticipated salvage and subrogation in its determination of the liability for unpaid claims/losses. There was no material value to the estimated salvage and subrogation.

GENERAL INTERROGATORIES

31. Provide the following information for all short-term and long-term bonds and all preferred stocks. Do not substitute amortized value or statement value for fair value.

	1	2	3
			Excess of Statement
			over Fair Value (-), or Fair Value over
	Statement (Admitted)		Fair Value over
	Value	Fair Value	Statement (+)
31.1 Bonds	84,402,364	75,210,315	(9,192,049)
31.2 Preferred stocks			
31.3 Totals	84,402,364	75,210,315	(9, 192, 049)

31.4	Describe the sources or methods utilized in determining the fair values: Bonds: BVAL, IDC, Comparable, Refinitiv, TRACE and various brokers. For private placement securities, internal estimates may be used		
	based on discounting cash flows at the current market applicable to the yield, credit quality and maturity of the bonds. See Note 20 for further information.		
32.1	Was the rate used to calculate fair value determined by a broker or custodian for any of the securities in Schedule D?	Yes [X] No []
32.2	If the answer to 32.1 is yes, does the reporting entity have a copy of the broker's or custodian's pricing policy (hard copy or electronic copy) for all brokers or custodians used as a pricing source?	Yes [] No [X]
32.3	If the answer to 32.2 is no, describe the reporting entity's process for determining a reliable pricing source for purposes of disclosure of fair value for Schedule D:		
	The Company generally obtains a copy of the pricing policy of those brokers used as pricing sources. However, the written pricing policies of all brokers may not be made available for the Company's use. For those securities in which a broker is used as a pricing source, the Comany's policy is to analyze and confirm each price to determine whether it is appropriate based on other observable market data. If the price cannot be validated by observable market data, the Company will not use the broker's price to value the security.		
33.1 33.2	Have all the filing requirements of the Purposes and Procedures Manual of the NAIC Investment Analysis Office been followed?	Yes [X] No []
34.	By self-designating 5GI securities, the reporting entity is certifying the following elements of each self-designated 5GI security: a. Documentation necessary to permit a full credit analysis of the security does not exist or an NAIC CRP credit rating for an FE or PL security is not available. b. Issuer or obligor is current on all contracted interest and principal payments. c. The insurer has an actual expectation of ultimate payment of all contracted interest and principal.		
	Has the reporting entity self-designated 5GI securities?	Yes [] No [X]
35.	By self-designating PLGI securities, the reporting entity is certifying the following elements of each self-designated PLGI security: a. The security was purchased prior to January 1, 2018. b. The reporting entity is holding capital commensurate with the NAIC Designation reported for the security. c. The NAIC Designation was derived from the credit rating assigned by an NAIC CRP in its legal capacity as a NRSRO which is shown on a current private letter rating held by the insurer and available for examination by state insurance regulators. d. The reporting entity is not permitted to share this credit rating of the PL security with the SVO. Has the reporting entity self-designated PLGI securities?	Yes [] No [X]
36.	By assigning FE to a Schedule BA non-registered private fund, the reporting entity is certifying the following elements of each self-designated	•	
	FE fund: a. The shares were purchased prior to January 1, 2019. b. The reporting entity is holding capital commensurate with the NAIC Designation reported for the security. c. The security had a public credit rating(s) with annual surveillance assigned by an NAIC CRP in its legal capacity as an NRSRO prior to January 1, 2019. d. The fund only or predominantly holds bonds in its portfolio. e. The current reported NAIC Designation was derived from the public credit rating(s) with annual surveillance assigned by an NAIC CRP in its legal capacity as an NRSRO. f. The public credit rating(s) with annual surveillance assigned by an NAIC CRP has not lapsed. Has the reporting entity assigned FE to Schedule BA non-registered private funds that complied with the above criteria?	Yes [] No [X]
37.	By rolling/renewing short-term or cash equivalent investments with continued reporting on Schedule DA, Part 1 or Schedule E Part 2 (identified through a code (%) in those investment schedules), the reporting entity is certifying to the following: a. The investment is a liquid asset that can be terminated by the reporting entity on the current maturity date. b. If the investment is with a nonrelated party or nonaffiliate, then it reflects an arms-length transaction with renewal completed at the discretion of all involved parties. c. If the investment is with a related party or affiliate, then the reporting entity has completed robust re-underwriting of the transaction for which documentation is available for regulator review. d. Short-term and cash equivalent investments that have been renewed/rolled from the prior period that do not meet the criteria in 37.a - 37.c are reported as long-term investments.		
	Has the reporting entity rolled/renewed short-term or cash equivalent investments in accordance with these criteria? Yes [] No [] N/A [X
